

**KEY**

Protection and Retention of Existing Seed Bank

- Area of Existing Flora to be Protected During Works  
 Existing species rich grassland to be protected from construction traffic, excavation and storage of materials during works.
  
- Existing Scale/ Soil Seed Bank to be Stripped  
 Strip soil and shale and seed bank to 50mm depth from area shown. Store on site and cover in piles not exceeding 1.5m high. Manage invasive weeds during storage.
  
- Disposition of Stripped/ Stored Scale/ Soil Seed Bank  
 Spread stored shale/ seed over areas shown to approximate 50mm depth. Lightly seed with Over-seeding Schedule as per drawing 114.01.04. Areas managed to maintain diversity of wildflower species including management of invasive weeds.
