

TACP Architects Ltd acknowledge the environmental implications of its activities and will ensure that all operations are carried out to achieve a high standard of environmental, health and safety care. The Directors of the Company fully recognise their duties with regard to compliance with relevant environmental legislation standards and regulations and will work towards the most effective methods, and adopt a position of responsibility by committing to a policy of continuous improvement and pollution prevention. This policy will be made available internally to our staff and externally to our suppliers and contractors. The policy is also available to the public when requested. The Environmental Policy is reviewed at least once a year and revised as necessary.

AIMS

- Complying with environmental and relevant legislation and the ISO14001:2015 Standard.
- Ensure activities on site do not cause pollution.
- Review the environmental impact of its services, products, and operations, with a view to reducing and controlling environmental impact where practical.
- Ensure the business operates in a sustainable manner.
- Set objectives and targets to ensure continual improvements to minimise environmental impacts.
- Provide training to employees in environmental issues.

REDUCTION IN ENVIRONMENTAL IMPACTS THROUGH IMPROVEMENT VIA:

- Waste reduction
- Ensure effective segregation of all paper, plastic, card, wood etc.
- Recycling initiatives
- Purchasing policy of materials and sustainability
- Energy and water usage
- Annually review our progress and monitor our achievements against set targets and objectives
